## ◀ Super Absorbent Spun Lace Viscose String Mops

Introducing the ultimate in floor cleaning technology. These clever (Made in Italy) mops combine the cleaning power of spun lace viscose fibers and the absorption ability of a synthetic shammy.

These string mops are more absorbent than any other available, and thanks to the high quality viscose fabric, they clean with only water. Use them with your favorite cleaner if you want, but the unique weave of the fabric allows this mop to clean without chemicals.
