

Cyano epoxy™

THE PERFECT FUSION BETWEEN AN EPOXY AND A SUPER GLUE

Technology by Afinitia.

- **High Strength**
- **Easy to Use**
- **Precision Application**
- **Use for Assembly & Repair**
- **Can be drilled, tapped, sanded and painted**

These four new hybrid adhesives were designed to incorporate the fast cure speed of cyanoacrylates with the strength and durability of epoxies.

With these four formulations you can bond almost anything including tough to bond plastics with the polyolefin primer, metal, alloys, cast iron, aluminum, wood, concrete, brick, stone, rubber, fabric, cloth and more!
